1) Open Battery Door on bottom of camera.
2) On the inside of the Door, pull the release button in the direction of the arrow. This will retract the pins to allow easy removal of the Battery Door. Set the Door aside.
3) Install RRS plate on camera. (If you wish to also install a strap, it is easier to do so before installing the plate.)

4) Retrieve Door. Pull the release button in the direction of the arrow to retract the pins on the Door.
5) Align the pins of the Battery Door with the two pinholes on the plate, angle into position, and release the button. This will allow the pins to pop out and lock the Door in place.
6) Open and close the Battery Door several times to ensure proper fit and function.
Note: When inserting the battery with the plate installed, use a similar angle of entry as you would without the plate.
